

Liquid Rubber Industries

Liquid Rubber

Innovators in environmentally safe protective coatings

Project:	Below barn floor
Client/End User:	Private Farmer – Western Ontario, Canada
Project Size:	16,500 ft ²
Completion Date:	June 2004
System Used:	Liquid Rubber Vezlar™ and Liquid Rubber Voxlar™

Job Description:

Product was applied for secondary containment to comply with “Nutrient Management Act Requirements”

The Liquid Rubber Vezlar™ protects the concrete from degradation due to hydrogen sulfide and Sulphuric acid attack.

Liquid Rubber Voxlar™ was troweled in all the seams and joints at a 2” thickness. Liquid Rubber Vezlar™ was then sprayed at a 2 mm thickness to the entire surface.

The high chemical resistance and tremendous durability of the Liquid Rubber made it the obvious choice for this project
