

NCFI

A whole new comfort level, for you and for the world.

Spray Foam Insulation from NCFI:

- > **Lower Environmental Impact**
Reduce your home's consumption of natural resources.
- > **Diminish Your Heating and Cooling Costs**
Start benefiting from the day you move in with lower Total Cost of Ownership. Save up to 40% compared to other insulation systems.
- > **Create a More Comfortable Home**
Keep out unwanted air, dust, pollen and noise.

NCFI produces two Spray Foam Insulation systems:

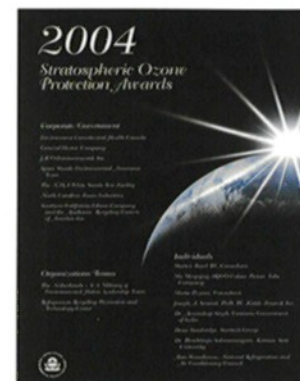

- > Contain no residue or VOCs to bleed-out or off gas, and no formaldehyde
- > Formulated from renewable agricultural resources like sugar cane, sugar beets and corn
- > Save trees by reducing lumber requirements in building your new home
